

# Technology Leadership-as-a-Service<sup>®</sup> : The CIO Role

Fortium offers a valuable alternative to the conventional hiring process with Technology Leadership-as-a-Service (TLaaS<sup>™</sup>).

Leverage the expertise of proven CIOs, CTOs, and CISOs ready to deliver from day one and eliminate the uncertainties and long-term commitments associated with permanent hires.

## TLaaS Benefits

-  Be Flexible/Scalable
-  Reduce Costs
-  Customize Solutions
-  Access Immediate Expertise
-  Reduce Risks

## The Chief Information Officer (CIO) Role

Our CIOs have 20+ years of experience in a technology leadership role at some of the most respected and well-known companies. They also have access to the knowledge base of Fortium, over 140 CIOs, CTOs, and CISOs. We can help lead the technology initiatives that will support business objectives.

-  Understand the organization's basic needs and aspirational desires
-  Lead, influence, communicate to, collaborate with, and provide executive presence to stakeholders
-  Maintain the organization's desired state by continuously iterating: assess, align, remediate, operate
-  Develop a recommended level of technology spend
